

**Objective:**

- This quiz will check your status of learning so far in the course by asking questions from easy to difficult based on knowledge learned so far.

**Challenge-A**

(8)

Give output of the following code snippets. If any of the line of code produces any syntax/logical error then explicitly mention it with reason.

**Part-A**

(5 (1, .5, 1.5, 1, 1))

	Lines	Output
1		BSCS
2		BSIT
3		E
4		You don't have to answer anything on this
5		CSITSEPU
6		PU

**Part-B**

(3 (1.5, 1.5 ))

	Lines	Output
1		8
2		10

**Challenge-B**

(5)

```
void printFizzBuzz(int lb, int ub)
{
    for (int i=lb; i<=ub; i=i+1)
    {
        if (i%15 == 0)
            cout <<"FizzBuzz\n";

        else if ((i%3) == 0)
            cout << "Fizz\n";

        else if ((i%5) == 0)
            cout << "Buzz\n";

        else
            cout<<i<<'\\n';
    }
}
```
